4	Key dates 2024	18	Engineering and Technology Apprentice Award
5	Which awards are international?	19	Engineering and Technology Technician Award
6-7	School competitions	20	IET Armed Forces Technician Award
8-9	IET Future Talent Awards	21	Churchill Medal
10	IET Power Academy Scholarships	22	IET Engineers in Society Awards
11	Student membership	23	IET Excellence and Innovation Awards
12	IET Healthcare Technologies Student and Early Career Awards	24-25	IET Young Woman Engineer of the Year Awards
13	IET Postgraduate Research Awards	26	IET India Scholarship Awards
14-15	IET Travel Awards	27	IET India Awards
16	IET Achievement Medals for Established Career Professionals	28	Honorary Fellowship
17	IET Achievement Medals for Early Career Professionals	29	Contact information

# Key dates 2024

## Deadlines for entry

- Postgraduate Research Awards – **Thursday, 4 April**
- Apprentice and Technician Awards – **Monday, 13 May**
- Achievement Medals – **Monday, 13 May**
- Excellence and Innovation Awards – **Friday, 28 June**
- Engineers in Society Awards – **Friday, 28 June**
- Young Woman Engineer (YWE) of the Year Awards – **Friday, 28 June**
- Future Talent Awards – **Friday, 20 September**

## Award ceremonies and prize lectures

- Harvey Prize Lecture – **Thursday, 14 March**
- Achievement Awards Ceremony – **Friday, 18 October**
- Excellence and Innovation Awards – **Wednesday, 23 October**  
Co-located from 2024 with the Engineers in Society Awards
- Engineers in Society Awards – **Wednesday, 23 October**  
Co-located from 2024 with the Excellence and Innovation Awards
- YWE Awards Ceremony – **December 2024**

Details are subject to change, please check the website for the latest information.

[theiet.org/awards](https://theiet.org/awards)

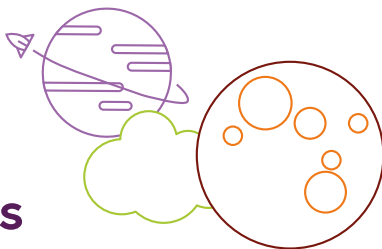

## Which awards are international?

- Faraday® DIY Challenge Days – see page 6<sup>1</sup>
- Postgraduate Research Awards – see page 13
- Travel Awards – see pages 14-15
- Achievement Medals for Early Career Professionals – see page 16
- Achievement Medals – see page 16
- Achievement Medals for Volunteers – see page 17
- Engineering and Technology Technician Award – see page 18
- Engineers in Society Awards – see page 22
- Excellence and Innovation Awards<sup>2</sup> – see page 23
- Honorary Fellows (HonFIET) – see page 28

<sup>1</sup> Use our resources to introduce IET Faraday® Challenge Days to young people where you live, even if you're not in the UK or following the UK academic year. Check out the website for further details.

<sup>2</sup> Please check categories for full criteria.

For those  
aged 5 to 16

## School competitions

### IET Faraday® Challenge Days

Free STEM activity days with a real-world challenge and annual competition for pupils aged 12 to 13 years.

Delivered free of charge by the IET in schools, organisations and universities - the IET Faraday® Challenge Days are one day STEM activities designed for six teams of six students.

The top teams from across the UK will be invited to the National Final at the end of the season to compete for a cash prize of up to £1,000 for their school to spend on STEM activities.

### IET Faraday® DIY Challenge Days

IET Faraday® DIY Challenge Days allow teachers and technicians to run their very own integrated project for their design and technology lessons.

Download our free guidelines and electronic resources that will take you through a classroom-based engineering challenge day, with an introductory presentation, handouts, video clips, printable IET Faraday® currency and student certificates.

We offer our IET Faraday® Challenge Days to both primary and secondary schools.

The resources are free to download and most of the practical materials you'll need should be available within your school.

Why not invite our Education Officers and Ambassadors to give you a hand on the day and bring real-life engineering experience into the classroom?

[theiet.org/faraday](http://theiet.org/faraday)

[theiet.org/faraday](http://theiet.org/faraday)

For those  
aged 4 to 16

## FIRST® LEGO® League Challenge

FIRST® LEGO® League Challenge is a global robotics-based life skills competition for young people (aged 9-16 years) that encourages an interest in real-world issues and develops valuable skills such as team working, problem-solving and creative thinking.

Each season an important global topic is chosen and, through research, the young people identify a problem associated with this theme. Teams are challenged to design an innovative solution which they present to the judges at their tournament. The teams also have to design, build and program an autonomous LEGO® robot to solve several missions in a limited time on the competition mat.

Throughout all these tasks they demonstrate the FIRST® LEGO® League Core Values which include teamwork, inclusion and problem-solving.

Teams can participate in school events or attend a regional tournament. Top performing teams go onto compete at a national and international level.

## FIRST® LEGO® League Explore

FIRST® LEGO® League Explore introduces 6-9 year olds to science and engineering concepts as well as enhancing skills such as teamwork.

It gives children the opportunity to research a real-world issue, design, build and program a LEGO® model with moving parts, and present their research on a poster at one of our regional Festivals. It makes STEM subjects exciting and great fun, whilst also developing important life skills such as communication, problem-solving and teamwork.

## For more information go to

[firstlegoleague.co.uk](http://firstlegoleague.co.uk)

@FLLUK FirstLegoLeagueUK

## FIRST® LEGO® League Discover

FIRST® LEGO® League Discover is the newest of the FIRST® LEGO League programmes for 4-6 year olds.

A new and exciting challenge is presented every year and each team of four children begins the exploration of this real-world theme with an exclusive LEGO® Education Discover model. Using this as a starting point, they design a new model of their own with LEGO® DUPLO® elements. As they work, they develop valuable habits of learning, such as persisting with tasks and applying previous knowledge to new situations. Teams share their journey, ideas, models, and STEM skills at a celebration event.

Throughout their experience, teams operate under the FIRST® Core Values, celebrating discovery and teamwork, all while having fun!

## Education bulletin

Sign up to the Education bulletin – a monthly bulletin from the IET and our education partners featuring STEM/computing teaching resources, events and enrichment activities for teachers and school children.

### How to sign up

- 1 Visit MyIET: [www2.theiet.org/my](http://www2.theiet.org/my)
- 2 Follow the registration process or log in.
- 3 Click on the "My Interests" tab (second option on the purple bar).
- 4 Scroll down to 'Email subscriptions and preferences'
- 5 Select your preferences under Newsletters (scroll down for 'Education Bulletin - Schools/FE')
- 6 Press the "update" button

@IETeducation

For students, apprentices  
and degree apprentices

# IET Future Talent Awards Launch Scholarships

These scholarships provide funding support to students, apprentices and degree apprentices who have faced financial or personal challenges and have a passion for engineering.

## What's on offer?

£1,500 per year for up to four years.

Recipients will receive free student membership to the IET for the duration of our support, giving access to our products and services.

Donor support means we can also offer engagement and mentoring with engineering companies.

## Who's it for?

Students, apprentices and degree apprentices about to start or in any year of their undergraduate or apprenticeship scheme accredited by the IET.

We welcome applications from full time, part time and mature students.

## What else do I need to know?

- For UK residents\*
- IET membership isn't required to apply

## When's the deadline?

Friday, 20 September 2024

## Payments

Successful applicants will receive their first payment in February 2025.

## Apply today

[theiet.org/future-talent](https://theiet.org/future-talent)

\*Applicants need to have been resident in the UK for at least three years at the time of application.

# IET Future Talent Awards Boost Scholarships

These scholarships are for students excelling in their studies, who have achieved 70% or above at the end of their second or third year of university and have a demonstrable passion for engineering.

## What's on offer?

£1,500 per year for up to two years.

Recipients will receive free student membership to the IET for the duration of our support, giving access to our products and services.

## Who's it for?

Students who are currently on an IET accredited undergraduate degree or degree apprenticeship.

## What else do I need to know?

- For UK residents\*
- IET membership isn't required to apply

## When's the deadline?

Friday, 20 September 2024

## Payments

Successful applicants will receive their first payment in February 2025.

## Apply today

[theiet.org/future-talent](https://theiet.org/future-talent)

\*Applicants need to have been resident in the UK for at least three years at the time of application.

- For students
- already at university

# IET Power Academy Scholarships

Offering plenty of benefits, including an exciting annual summer seminar, paid summer work placements, a £3,000 annual bursary, plus outstanding career opportunities with power sector employers after graduation.

## Who's it for?

Students at a partner university who are in any year (except final year) of an IET accredited Electrical, Electronic or Power Engineering course at BEng or MEng level.

## What's on offer?

A bursary and an 8-12 week well-paid vacation placement, and attendance at an IET-hosted summer seminar. Winners also receive free student membership for the duration of their course.

## What else do I need to know?

- You must be on track for a 2nd class honours degree
- You don't need to be a member of the IET
- You can apply in any year of study (except final year)
- If you are already receiving another company sponsored scholarship or bursary you will not be eligible for the IET Power Academy scholarship as well

## When's the deadline?

Friday, 25 October 2024

[theiet.org/poweracademy](https://theiet.org/poweracademy)

For students  
already at university

# Student membership

## Fast track your future with the IET

We're here to support our members – students like you – to achieve great things during your studies and beyond.

To keep up to date with all the latest news on how we can support you with your studies, check out our Student Hub.

[theiet.org/students](http://theiet.org/students)

### Lets get social!

Join our **Student LinkedIn group**, a place for you to see and share experiences and opportunities, collaborating with a global network of engineering and technology students.

### Keep up to date with technical knowledge

We have a range of resources that can help you with your studies and keep you up to date with the latest industry developments:

#### IET Digital Library

Add references to your work with over 190,000 technical papers.

#### IET.tv

Browse the world's largest collection of engineering and technology videos.

#### E+T Magazine

Receive breaking news and read the latest engineering features on [eandt.theiet.org](http://eandt.theiet.org)

### Advance in your career

**Career Manager** – Record all of your experience and achievements and build a master CV for when you start applying for jobs.

**Professional Registration** – it's never too early to start working towards your future career ambitions.

**E+T Jobs** – Upload your CV and search for upcoming roles on our jobs platform.

### Connect with our global network of engineers

It's never too early to start making connections in the industry:

**Communities** – Get advice from technical experts, network with people in your local area and join online discussions with our communities who can help you do more.

**On Campus** – Join an IET On Campus group to get the experience and skills to stand out in a competitive market.

**Events** – Network with like-minded engineers and broaden your knowledge to help with your studies.

### Support when you need it most

**Foothold** – Whether it's the stress of exams, housing support or financial difficulties, Foothold, a separate registered charity trading as Foothold (The Institution of Engineering and Technology Benevolent Fund), can help ease your burden and enable you to focus on your studies.

Find out how student membership can help you achieve great things.

[theiet.org/students](http://theiet.org/students)

For Postgraduates

# IET Healthcare Technologies Student and Early Career Awards

The IET Healthcare Technologies Network is keen to encourage and support the work and research of academics and newly qualified professionals in healthcare, medical and biomedical engineering arenas. The network presents annual prizes through a number of awards.

## Who's it for?

MEng, MSc and PhD students in the field of Biomedical Engineering and related subjects, as well as those in the early stage of their career in the field of research and development within Biomedical Engineering.

## What's on offer?

The opportunity to increase your professional profile and present your winning work at our prestigious Annual Healthcare Lecture, prizes of up to £600, and one year free IET membership.

## What else do I need to know?

You don't need to be an IET member to enter. International entries welcome.

## When's the deadline?

Friday, 26 July 2024

## Find out more

You can find more information on eligibility requirements for each award at

[theiet.org/healthcare-awards](https://theiet.org/healthcare-awards)

# IET Postgraduate Research Awards

Awards for postgraduate research students who are IET members.  
Open to students from all over the world.

## Who's it for?

Researchers who have started their PhD or EngD research programme, with a minimum of one year's IET membership\*.

## What's on offer?

Seven awards are available:

- Three x £2,500 prizes
- Three x £5,000 prizes
- One x £10,000 prize

Awarded on a competitive basis for excellence. Shortlisted applicants will be invited to interview.

## What else do I need to know?

- You'll need to have achieved a 2:1 or higher in your first degree
- You can be in any year of your PhD or EngD research programme, but you must have started it by the application deadline
- You can apply for an award if you have a student loan, research grant, company bursary, or similar, or have won an IET Travel Award or IET scholarship or bursary
- The panel will consider you for all postgraduate research awards you are eligible for
- You'll need to include details of your referee on your application
- If you're successful, you can only receive one IET Postgraduate Research Award during your PhD research

\*Student, Member, Fellow categories can apply

## When's the deadline?

Thursday, 4 April 2024

Interview date, if shortlisted:  
Thursday, 6 June 2024

## Payments

If you're successful, you'll receive a one-off payment of between £2,500 and £10,000.

Apply online today

[theiet.org/postgradawards](https://theiet.org/postgradawards)

# IET Travel Awards for National Travel

If you're a member of the IET, we can provide grants to help you attend any conference or research visit in the country you're currently based in – anywhere in the world!

## What's on offer?

We award grants of £600 to fund your travel costs.

## Who's it for?

For IET members\* across the world with a minimum of one year's membership.

## What else do I need to know?

- You don't have to be a national of the country you're based in to apply
- The travel should take place at least one month after the closing date for applications – you cannot submit an application after an event has taken place
- You can make up to two applications within a year
- If you have already received an IET Travel Award, a year must have passed before you can apply again
- A reference is required to support your application

## When's the deadline?

Grants are given out six times a year and we award around two grants in each round.

- **Round 1**  
17 January 2024
- **Round 2**  
13 March 2024
- **Round 3**  
8 May 2024
- **Round 4**  
17 July 2024
- **Round 5**  
18 September 2024
- **Round 6**  
13 November 2024

## Apply online

[theiet.org/travel-awards](https://theiet.org/travel-awards)

\*Student, Member, Fellow and some Associate categories can apply, lapsed members are not eligible.

# IET Travel Awards for International Travel

If you're a member of the IET, we can provide grants to help you present a paper or poster at conferences around the world or participate in international research visits or projects.

## What's on offer?

We award grants of up to £1,500.

A maximum of 75% of the total cost of your visit would be funded by the IET.

## Who's it for?

IET members\* who are travelling as part of their professional development, with a minimum of one year's membership.

## What else do I need to know?

- You can live in any country, but your travel must be international
- The travel should take place at least one month after the closing date for applications – you cannot submit an application after an event has taken place
- You can make up to two applications within a year
- If you have already received an IET Travel Award, a year must have passed before you can apply again
- A reference is required to support your application

## When's the deadline?

Grants are given out six times a year and we award around two grants in each round.

- **Round 1**  
17 January 2024
- **Round 2**  
13 March 2024
- **Round 3**  
8 May 2024
- **Round 4**  
17 July 2024
- **Round 5**  
18 September 2024
- **Round 6**  
13 November 2024

## Apply online

[theiet.org/travel-awards](https://theiet.org/travel-awards)

\*Student, Member, Fellow and some Associate categories can apply, lapsed members are not eligible.

# IET Achievement Medals

These awards recognise individuals who have made exceptional contributions to the advancement of engineering and technology, either through research and development, through their leadership of an enterprise, or through their inspiring efforts as early career professionals or IET volunteers. All awards are open to global nominations.

## Prestige medals

### Established career

We award up to four Prestige Medals each year to individuals who have made major and distinguished contributions in the various sectors of engineering, technology or applied science.

#### The Faraday Medal

For scientific or industrial contributions

#### The Mountbatten Medal

For the fields of electronics or IT

#### The Mensforth Manufacturing Gold Medal

#### The J J Thomson Medal for Electronics

## Achievement Medals

There are up to five Achievement Medals available each year. These are awarded to individuals who have made an impact in any sector of engineering and technology.

### Who are they for?

Established career professionals in engineering and technology. You don't need to be a member to nominate or be nominated. Established career means anyone who is, allowing for career breaks, more than 10 years from the start of their first employment in engineering or technology.

### What's on offer?

All winners will receive a medal, certificate and a year's free membership of the IET.

The Faraday and Mountbatten Medallists will also be invited to sign the Roll of Honour.

Our prestige medals have been added to the Government's Global Talent Visa List which means that international holders of these prizes can apply for a visa to live or work in the UK for up to five years, and extend beyond that if they wish.

For more information please visit  
[gov.uk/global-talent](https://gov.uk/global-talent)

### When's the deadline?

Monday, 13 May 2024

Winners will be announced at the IET Achievement Awards ceremony on Friday, 18 October 2024.

Nominate online at  
[theiet.org/achievement](https://theiet.org/achievement)

## For early career, established career, and volunteers

### Early career

These awards focus on the outstanding work, significant career progress, and contributions of early career professionals to their industry or profession. Early career means someone who is, allowing for career breaks, within 10 years of the start of their first employment in engineering or technology.

### Who are they for?

**Sir Henry Royce Medal** for the most significant progression achieved over a period of more than three years.

**Mike Sargeant Medal** for true excellence in the workplace achieved within the last three years.

You don't need to be a member to nominate or be nominated for either award.

### What's on offer?

All winners will receive a medal, certificate and a year's free membership of the IET, plus:

**Sir Henry Royce Medal:** £250 prize money

**Mike Sargeant Medal:** £500 prize money

### Volunteer

These awards celebrate the outstanding contributions of our volunteers as they help to further the aims of the IET.

### Who are they for?

**IET Volunteer Medal:** individuals engaged in an IET volunteering role for at least one year.

**Paul Fletcher Medal:** early career IET volunteers. The nominee must be a member of the IET, but the nominator does not.

### What's on offer?

All winners will receive a medal, certificate and a year's free membership of the IET, plus:

**Paul Fletcher Medal:** £250 prize money

### What else do I need to know?

All nominations should provide a concise, complete, and verifiable description of the impact and influence of the individual both to their profession and wider society, with specific reference to their work as an engineer, technologist, technical leader/ manager, or academic, as appropriate.

Volunteer nominations should clearly show how the nominee has worked to further the aims of the IET or has exemplified the IET's values and behaviours.

Other factors can enhance nominations where appropriate, like engineering ambassadorial activities and STEM promotion, or for volunteers – contributions to the IET's mission and strategy.

### When's the deadline?

**Monday, 13 May 2024**

Winners will be announced at the IET Achievement Awards ceremony on Friday, 18 October 2024.

**Nominate online at**  
[theiet.org/achievement](https://theiet.org/achievement)

# IET Apprentice and Technician Awards

## Engineering and Technology Apprentice Award

Award for an individual on an IET Accredited Apprenticeship Scheme making great progress towards the apprenticeship qualifications and who has made substantial contributions towards their employer or operational area.

Shortlisted candidates will be invited to attend the Achievement Awards ceremony in October where the winner will be revealed.

### Who's it for?

Apprentices on an IET Accredited Apprenticeship scheme. Open to IET members and non-members.

### What's on offer?

- Trophy and certificate presented at the Achievement Awards ceremony in London in October
- £1,000 prize
- Two year's free membership to the IET

### What else do I need to know?

There are two ways to enter this award. You can either nominate someone else or make a self-nomination. If you self-nominate, you must have a referee who will support your application.

### Nominees must:

- Be on, or have recently completed, an IET Accredited Apprenticeship
- Be making good progress towards the apprenticeship qualifications, or have recently completed their apprenticeship
- Have made a substantial contribution towards the development of a new product, service or process that demonstrates outstanding understanding of engineering principles
- Have evidence of engineering ambassadorial work (schools, volunteer work, role model)

### When's the deadline?

Monday, 13 May 2024

Nominate online today at [theiet.org/apprentice-awards](https://theiet.org/apprentice-awards)

# IET Apprentice and Technician Awards

## Engineering and Technology Technician Award

This award is to recognise individuals in technical support roles from engineering, technology or in academia around the world. We welcome entries from any sector, and from any country.

Shortlisted candidates will be invited to attend the Achievement Awards ceremony in October where the winner will be revealed.

### Who's it for?

- Open to IET members and non-members

### What's on offer?

- Trophy and certificate presented at the Achievement Awards ceremony in London in October
- £1,000 prize
- Two year's free membership to the IET

### What else do I need to know?

There are two ways to enter this award. You can either nominate someone else or make a self-nomination. If you self-nominate, you must have a referee who will support your application.

### Nominees must:

- Demonstrate exceptional commitment to engineering or technology through their technical and professional development
- Demonstrate outstanding engineering or technical understanding and ability which has made a sustained contribution to the business
- Other factors can enhance the nomination like engineering ambassadorial activities such as outreach events or STEM promotion

### When's the deadline?

Monday, 13 May 2024

Nominate online at [theiet.org/techawards](https://theiet.org/techawards)

# IET Apprentice and Technician Awards

## IET Armed Forces Technician Award

Awarded to an individual in recognition of an exceptional engineering contribution in developing a product, service or process or the completion of a project. They will also have demonstrated outstanding commitment to engineering or technology through technical and professional development.

We welcome nominations for Armed Forces Technicians who are current serving members of the United Kingdom Armed Forces.

Shortlisted candidates will be invited to attend the Achievement Awards ceremony in October where the winner will be revealed.

### Who's it for?

Open to IET members and non-members.

### What's on offer?

- Trophy and certificate presented at the IET Achievement Awards ceremony in London in October
- £1,000 prize
- Two year's free membership to the IET

### What else do I need to know?

There are two ways to enter this award. You can either nominate someone else or make a self-nomination. If you self-nominate you must have a referee who will support your application.

#### Nominees should:

- Demonstrate exceptional commitment to engineering or technology through their technical and professional development
- Demonstrate outstanding engineering or technical understanding and ability within their area of operation
- Other factors can enhance the nomination like engineering ambassadorial activities such as outreach events or STEM promotion

### When's the deadline?

Monday, 13 May 2024

Nominate online today at  
[theiet.org/techawards](https://theiet.org/techawards)

# Churchill Medal

The Churchill Medal, named in honour of Sir Winston Churchill, was first awarded in 1952. Sir Winston, who expressed great enthusiasm for this award, reflected on the important contribution made by engineers of all disciplines to the military needs in the Second World War.

The medal is awarded jointly by the IET, Institute of Marine Engineering, Science and Technology (IMarEST), the Royal Aeronautical Society (RAeS), the Institution of Mechanical Engineers (IMechE), the Institution of Royal Engineers (InstRE), the Institution of Civil Engineers (ICE), the Society of Operations Engineers (SOE) and the British Computer Society (BCS).

## Who's it for?

The award is for an individual or a small team (the majority of whom are serving members of the armed forces or were serving at the time) for achievement in engineering and technical advancement in support of the development and use of capability to support military operations/readiness during the period 2023/2024.

## What's on offer?

A medal and certificate presented at an award ceremony in London on 14 November 2024.

### The Churchill Medal Award is judged against five main criteria:

- Operational Effect
- Innovation
- Difficulty
- Complexity
- Efficiency.

## What else do I need to know?

Winning nominations will need to demonstrate strong evidence in all of these criteria and be an example of someone going above and beyond.

Nominators will be required to complete a nomination form which will be available to download from the website when nominations open in March 2024.

## When's the deadline?

Friday, 21 June 2024

Nominate online at  
[theiet.org/churchill-medal](https://theiet.org/churchill-medal)

# IET Engineers in Society Awards

## A set of awards all about celebrating the world's greatest teams.

Teamwork is critical to success, and these three awards celebrate the art of collaboration in the engineering workplace.

We want to hear from teams who are bringing together expertise from different areas and collaborating to achieve day-to-day developments, or significant societal improvements across all disciplines of science, engineering and technology.

## Who's it for?

Teams of engineers of all types and sizes including multi and cross discipline. They can be based anywhere in the world and be from any part of industry. They can be formed of any number of individuals and can include junior team members e.g., apprentices and early career technicians.

## Categories include:

- **Sustainability and Climate Change** – teams working to secure securing a zero-carbon future
- **Digital Futures** – teams collaborating on projects in the field of promoting professional ethics and trust
- **Healthy Lives** – teams innovating assisted living, robotics

## What's on offer?

Winners will benefit from IET led PR and communications activities, alongside a certificate and recognition at the combined awards ceremony with the Excellence and Innovation Awards.

## What else do I need to know?

- These awards are open for teams to nominate or apply themselves; the more first-hand information provided, the better.
- Whether the work delivered is in the public or private sector, all applications will be considered if applicants can demonstrate effective teamwork that has enabled the team to deliver impactful engineering solutions.
- Inspirational and impactful work of teams and significant advancements made to improve quality of life from the unsung heroes in the industry is especially welcome.
- These awards are not intended to provide awards for products, services, and solutions – for these areas, please look at our Excellence and Innovation Awards.
- Open for entries: April 2024

## When's the deadline?

Friday, 28 June 2024

[theiet.org/engineers-in-society](https://theiet.org/engineers-in-society)

# IET Excellence and Innovation Awards

## Who's it for?

Any individual, collective or organisation who has developed an innovation or initiative which has the potential to make dramatic improvements to modern society or to people's lives.

## What else do I need to know?

- Categories cover areas like AI and robotics, healthcare, power and energy, and sustainability.
- There is a special award voted by the public for Young Pioneer which celebrates rising talent between the ages of 18 to 25.
- Open for entries: April 2024
- This year's awards will be co-located with our Engineers in Society Awards, celebrating teams of unsung heroes providing solutions within the engineering community.

## What's on offer?

A trophy for the winner of each category and recognition of their leadership in that area.

## When's the deadline?

Friday, 28 June 2024

Nominations and further information can be found at [theiet.org/innovation](https://theiet.org/innovation)

For early career  
women engineers

# IET Young Woman Engineer of the Year Awards

These prestigious awards are all about breaking the stereotype and shining a light on outstanding women engineers up and down the country.

By showcasing some of the UK's most outstanding talent, we want to encourage more women to join the wonderful world of engineering.

## The prizes

**The IET Young Woman Engineer of the Year Award is for:**

- Engineering ability and competence, regardless of level of registration
- Evidence of initiative and ability to be an able ambassador, representing women in engineering and acting as an inspirational role model

**The Mary George Memorial Prize for Apprentices is for:**

- Young women currently employed in UK apprenticeships, within any discipline of engineering
- Women who have finished their apprenticeship within the last six months before the closing date may also be considered for this award

**The Women's Engineering Society (WES) Prize is for:**

- A young woman engineer who is able to engage and inspire young people's involvement in STEM subjects

## Who's it for?

Early career women engineers (up to the age of 35) working within engineering and technology sectors in the UK. Open to IET members and non-members.

## What's on offer?

In addition to a trophy, the winners receive:

**YWE winner:** £2,500

**Apprentice winner:** £1,000

**WES winner:** £1,000

All prizes are awarded at a national awards ceremony each year, covered by print and broadcast media. All award winners will have the opportunity to attend high profile events and meet the most influential people in our industry in the year following their win.

## What else do I need to know?

All applicants must be working in the UK.

## When's the deadline?

Friday, 28 June 2024

Apply online and get more information at [theiet.org/ywe](https://theiet.org/ywe)

# IET Gender Diversity Ambassador Award

Now in its fifth year, this lifetime achievement award has been created in recognition of an individual's hard work in achieving gender equality within the engineering industry. The award aims to showcase innovation and good practice to compliment the YWE Awards, by recognising the support and encouragement of women in STEM careers.

## Who's it for?

An individual who has spent a large proportion of their career committed to addressing the gender imbalance within their profession.

He or she should be an inspiration to their colleagues, and have made a significant contribution to addressing and making a real difference to the engineering diversity gap.

## What's on offer?

The winner will receive a trophy presented at the IET Young Woman Engineer of the Year Awards ceremony.

## What else do I need to know?

You can either enter yourself or be nominated for this award.

## When's the deadline?

Friday, 28 June 2024

**Apply online and get  
more information at  
[theiet.org/ywe](https://theiet.org/ywe)**

# IET India Scholarship Awards

The IET India Scholarship Awards are open to Indian undergraduate engineering students and rewards their creativity, innovation, leadership, and excellence. The programme aims to celebrate individual excellence and innovation among undergraduate engineering students in India.

## What's on offer?

Tiered prizes totalling to £10,000 prize money and a certificate. Recipients also receive free IET student membership for the duration of their remaining academic course.

## Who's it for?

The award is open to students of all AICTE, UGC approved and National institutes among the 1st, 2nd, 3rd, and 4th year undergraduate engineering students in India.

## What else do I need to know?

- Indian residents only
- You don't need to be a member of the IET
- You can use the prize money as you deem fit
- You can apply even if you have other scholarships or monetary benefits from your college or any other institution
- The 4-step award process evaluates participants across rigorous parameters that include academic performance, extracurricular activities, technical, presentation and leadership skills and their ability to come up with engineering solutions to solve problems impacting society

## Important dates

- Entries open: 1 April 2024
- Deadline for applications: 31 May 2024
- Payments: Successful candidates will receive the prize money in September/October 2024.

**You can directly apply at**

**[scholarships.theietevents.com](https://scholarships.theietevents.com)**

when the application opens 1 April 2024.

# IET India Awards

We acknowledge exemplary contributions to the engineering landscape in India, and celebrate individuals, organisations and teams who display immense potential and impact across the industry in the IET's areas of focus.

- IET India Lifetime Achievement Award
- The Youth Engineering Icon of The Year
- IET India Young Woman Engineer Award
- IET India Volunteering Award
- IET India Future Tech Awards
- IET India Mobility Awards
- IET India Engineering the Future of Work Award

## What's on offer?

All awards are non-monetary aimed at recognising extraordinary engineers and engineering. Winners will receive a citation (certificate /plaque) to signify their winning of the award.

## Who's it for?

These awards are open to practising engineers, teams and organisations across industry, academia, not-for-profit organisations as well as from the government. We are looking for change agents, difference makers and engineering champions who are making a difference to the country, through engineering.

## What else do I need to know?

Specific requirements and eligibility criteria differ for each of the seven award categories. You can check the specifics of each award on the [India Awards page](#).

## Important dates

- Entries open: 1 June 2023
- Deadline for applications: 4 August 2024

**You can directly apply at**  
[theiet.org/india-awards](https://theiet.org/india-awards)

when we call for applications in June 2024.

# Honorary Fellowship (HonFIET)

Honorary Fellows are distinguished individuals elected by the Board of Trustees.

## Eligibility

Honorary Fellows are persons distinguished by their work in any engineering discipline falling within the objects and purposes of the IET, or distinguished persons whom the IET desires to honour for services rendered to the IET or whose association is of benefit to the IET.

## Designatory letters

Honorary Fellows may use the designatory letters HonFIET (Honorary Fellow of the Institution of Engineering and Technology).

## Proposal of candidates

Proposals for Honorary Fellowship should be accompanied by brief biographical information and a short statement of the grounds on which the nomination is made. Candidates can be members or non-members.

### Proposals should be sent to:

Governance Department  
The Institution of Engineering and Technology  
Savoy Place  
London  
WC2R 0BL  
United Kingdom  
Tel: +44 (0)20 7344 5415  
Email: [governance@theiet.org](mailto:governance@theiet.org)

For past recipients, visit
